SPEED AT FOOT OF MOST
HIGHWAY AUTO ACCIDENTS

The man who directs the most massive traffic safety movement in the history of the automobile says that speed "is at the root" of nearly all highway accident.

Speaking to delegates attending the Maine Youth Highway Safety Council, Paul H. Blaisdell, director of traffic safety, Association of Casualty and Surety Companies, also praised Maine for being the first state in the nation to recognize "the tremendous potential" of the nation-wide "Slow Down and Live" program as an activity for youthful drivers. Mr. Blaisdell addressed the group in his capacity as executive Secretary of the Association of State and Provincial Safety Coordinators, sponsors of the annual summertime safety program.

"Needless haste the hurry psychology - is at the root of 75 to 90 per cent of our highway accidents," Mr. Blaisdell said. "In the summertime this figure is definitely higher. Well over 90 per cent of our accidents result from excessive speed, speed too fast for conditions, improper passing, following too closely and failing to yield the right-of-way - all manifestations of the 'in-a-hurry' driving complex."

"You know that complex as well as I: It's the driver who wants to be first at the beach on Sunday morning and first home Sunday night. It's the driver whose impatience can't survive more than two traffic tie-ups before he's cutting out of line to gain two car-lengths. It's the driver who doesn't know that it takes a greater distance to slow a moving vehicle from 70 to 50 miles an hour than it does to bring it from 50 mph to a complete stop."

"Six years ago a small group of hardbitten realists admitted the seriousness of the 'hurry drivers' and were determined to do something about them in the summer vacation period. With these 11 officials from northeastern states the 'Slow Down and Live' program was born - founded on the proposition that the way to lick the problem was to step up enforcement against the 'hurry driver' and, at the same time, to saturate the people with publicity and promotion on speed control."

"The results of 'Slow Down and Live' speak for themselves. In 1954, it was extended to 24 states - in 1955 to the nation - in 1957 to the Dominion of Canada. This year it operates from the Arctic Circle to the Caribbean - the biggest traffic safety promotion in the history of the safety movement.

"In 1957, the program produced and distributed more than 75 million promotional items, enjoyed over 400,000 radio spots, in excess of 100,000 television public service messages, reached an audited circulation of more than 2,000,000,000 reader impression on outdoor advertising posters - and lowered the traffic death injury record from May 20 through Labor Day in the United States, in Canada and in Puerto Rico."

"We will not reach the zenith of success in this project until it would be impossible for a man to take his family on a vacation trip from Sweetwater, Texas, to Waterford, Maine, without being reminded, every day and in every way, to 'Slow Down and Live.' It is this program that you are being asked to support this year. I am in that support a public relations opportunity for the youth of Maine - an opportunity to convince some doubting elders that you are

not just 'talking' safety but are 'doing' safety. When you encourage an organization, a business firm, a corporation or a municipality to obtain and distribute campaign materials, you are doing a public service."

SO THEY SAY -

"Fear is playing the biggest part in this recession. I do not think it is an exaggeration to say that recession begins and ends in the

minds of men." - Charles G. Mortimer, President, General Foods Corporation.

"If all government would go about reducing its own cost, as business has to in these times, and would make a real effort at correcting the discriminatory tax burden more would be accomplished than all of the proposed temporary quick remedies put together." - Robert W. Stoddard, President, Wyman-Gordon Company.

Conservation Farming
In Oxford County

By Lyman W. Jacobson

Reclamation of the burned area
in southern Oxford County rates
high on the Work Plan of the su-
pervisors of the District. Some 70
acres have been replanted during
May.

Fred Walker planted about seven
acres; R. C. Dunn and Son
planted nearly sixteen acres. Oth-
er farmers planting in the Brown-
field-Hiram area include Harry
Bosterfield, fifteen acres; Roy
Wymouth, ten acres; John La-
France, five acres; Clarence Dou-
glas, four acres and Hugh Hastings,
three acres.

Tree planting in the burned area
is a major operation. Competition
from weed type trees such as gray
spruce must be met with rugged
effort.

The Oxford County soil conserva-
tion district operates a heavy wild-
land Lowther tree planter. The
man riding the machine is protect-
ed by a pine frame from falling
limbs uprooted by a V-type blade.
The V-type blade is mounted on a
bulldozer, which clears a path and
hauls the planter.

Lloyd Rowe, Soil Conservation Ser-
vice Engineer, is assisting farmers
in Oxford County this week. Cam-
mack Brothers in Houghton have a
serious stream bank erosion prob-
lem that Lloyd will look over. Norm
Gray of Fryeburg has a land drain-
age and leveling problem that will
be checked.

Conservation farm plans need to
be revised and brought up to date.
Changes in methods of farming
and changes from cropland farm-
ing to grassland farming mean a
different plan of operation.

Within the next two weeks, con-
servation farm plans will be re-
vised with Bacheider Brothers of
Rumford, Charles Hersey of North
Waterford, Robert Grover, Bethel,
and Lewis Bacon, Hiram.

New conservation farm plans
will be developed with Clarence
Conant of Hebron and Merritt Kim-
ball, South Waterford.

GRASS ROOTS OPINION

New Philadelphia, Ohio, Daily
Times: "The communist world does
a great deal of blatant advertising
of its alleged charms for the mas-
sages of humanity.... In a recent
CBS interview, Mayor Willy Brandt
of West Berlin... said that every
day 200 to 300 East Germans cross
into West Berlin as refugees. Since
1950 the stream has mounted to
more than million. If Communist
lands are such a magnificent haven
for humanity, why don't people
stay? You'll never see the answer to
that in the Kremlin's ads."

Norwalk, Conn., Hour: "The guid-
ing spirit of the recovery, as the
President sees it, is not a crash
program by the government. Rath-
er, the government is leading off
with enough to encourage private
enterprise. Business is there for
those who believe in it and prepare
for it. The recovery will be sound-
er and more lasting that way."

The Buttonville Cooks of Beth-
el held a meeting June 2, 1958, at
the home of their leader, Mrs. Eth-
el Robertson. The President opened
the meeting with God Bless Am-
erica, Club Pledge, Flag Salute,
Lord's Prayer. Our leader check-
ed notebooks and had us sort them.
Next week we are having a tour
and picnic after it—Grace Haines,
Club Reporter.

Brownie Troop 8 held their an-
nual picnic Tuesday, June 3, at the

Maine Wildlife Den at Bryant
Pond. Mr. Whitman showed us ar-
ound and told us interesting facts
about each animal. We would like
to thank Mrs. Chapin, Mrs. Con-
ner, Mrs. Haines and Mrs. Merrill,
Mrs. Cross, Mrs. Cookidge for fur-
nishing transportation and our pic-
nic lunch. Watch for more Brown-
ie Troop 8 news in September.
